PROFESSIONAL SUMMARY

- Detail-oriented Cybersecurity Enthusiast with strong foundations in computer systems, networking, and security principles.
- Skilled in identifying security threats, phishing detection, identity and access management, and authentication mechanisms.
- Hands-on experience through cybersecurity simulations and real world projects , along with practical exposure to IoT systems using using Arduino and NodeMCU.
- Seeking an entry-level Cybersecurity or SOC Analyst role to enhance system security and protect digital assets.

TECHNICAL SKILLS

Cybersecurity & Networking: Phishing Detection security awareness, IAM Basics, Authentication, Access Control, TCP/IP, DNS

Systems & Tools: Windows, Linux, Git, GitHub, VS Code, Command Line, Wireshark, Nmap, Kali Linux

Programming: Java (OOP), Python, C++, HTML, CSS

IoT: Arduino, NodeMCU

PROJECTS

IoT-Based Wheat Health Monitoring System

- Developed an IoT system using NodeMCU and Arduino components
- Integrated sensors like rain sensor, pH sensor, LEDs, and relay module
- Enabled real-time monitoring of environmental conditions for crop health
- Demonstrated automation concepts and real time monitoring

Student Record Management System (Java)

- Developed a Java application using OOP concepts
- Implemented CRUD operations and file handling
- Improved structured data management
- **GitHub:** [View Project](#)

Personal Portfolio Website

- Designed and deployed a responsive website using HTML and CSS
- Showcases projects and technical profile
- Optimized for performance and accessibility
- **Link:** [Portfolio Website](#)

EDUCATION

Sam Higginbottom University of Agriculture, Technology & Sciences
Bachelor of Computer Applications (BCA)

2024 – Present
Prayagraj, India

CERTIFICATIONS

- Deloitte Cyber Job Simulation IT Security & Incident Awareness
- Mastercard Cybersecurity Job Simulation Phishing & Threat Analysis
- Tata Cybersecurity Analyst Job Simulation Identity & Access Management
- LinkedIn Learning: GitHub Project Management, Business Analysis, Generative AI
